

JULIAN LACEY

UNDERGRADUATE IN MECHANICAL ENGINEERING

Julian.lacey@wsu.edu | 425-219-9467 | www.linkedin.com/in/Julacey

Career Goals

Looking for experiences in a good working environment that can help provide knowledge, understanding, and build character within myself. Getting my education in mechanical engineering I am looking to build connections and people to learn from, but also becoming an asset for them with determination, dedication, and drive.

Extra Circular Activities

Computer Systems

- Experience with diagnosing/repairing hardware and software issues for classmates, teachers, family, and friends on Windows and MacOS.
- Designing, programming, and assembling multiple robots in my free time.
- Planning and building several PC systems within a budget for friends and family.

Landscaping

- As a side summer job pressure washed, Mowed Lawns, and yard work for people all over my community.

Car Maintenance

- diagnosed/repaired/maintained my personal vehicle since I started driving including engine issues, oil changes, and basic maintenance.

APSCO – helped repair high flow rate screw pumps for a local water works company.

Education

Washington State University - Class of 2025

- Bachelor of Science in Mechanical Engineering
 - Concentration in autonomous systems
- Minor in mathematics
- Minor in Software Engineering

Skills

Relevant Courses

- SIG – Summer institute for the gifted
- Digi Pen Academy – Robotics, Robotics 2, 2D Game Design, 3D Game Design, RC car, RC Plane, Digital Animation – helped new students become comfortable to the program and created a personal relationship with instructors and students

Microsoft Office Certification

- Word Expert Certified
- PowerPoint Certified
- Excel Certified

Professional Experiences

- Kitchen Tune Up (Seasonal Technician – Carpentry) – May 2022-August 2022 – Spent the past summer working hands on remodeling kitchens, working with homeowners and suppliers to problem solve solutions in a timely fashion. Prioritizing communication within the team to achieve high quality renovations, while consistently reducing project timelines by 30%.
- Crate & Barrel (Seasonal merchandising associate) – November 2020–January 2021 – Provided necessary product organization and support for sales associates, created a fun and open workspace, and with communication, built efficiency.
- Ivar's seafood bar (Chef) – June 2020–August 2021 – Lowered customer wait times drastically and brought organization through leadership.
- Lollicup Fresh (Barista) – August 201–June 2020 – Created positive relationship with customers and increased the number of regulars.
